Town of Oregon Snow Removal Guidelines

The Town of Oregon road crew strives to plow and remove snow from the roads as efficiently and safely as possible. Here are some tips to follow to help the snow removal crew:

- * Please move vehicles off the road and park in your driveway, especially in the cul-de-sac areas. **Vehicles parked on the road are hazardous and interfere with snowplows.**
- * Snow plow drivers work long hours, often beginning at 1 or 2 AM. They spend hours fighting the blowing snow, the night glare and traffic. When you meet a plow, give them the space they need to get their job done. It is not only a courtesy, it's the law!
- * Walk with caution. When encountering a snowplow while walking, move to the opposite side of the road. A snowplow has a 9 foot wing on its right side that can throw snow 20 feet! When visibility is limited, it may be better to avoid walking on the roadways.
- * The town road right-of-way stretches 33 feet from the center of the road. The landowner may use and maintain this area as lawn, however it is very important that plants, sprinkler systems or other items are not placed in the road right-of-way as the snowplows could damage them. The town is not responsible for the damage of items in the road right of way.
- * Pushing or blowing snow from a private driveway onto the roadway is dangerous and prohibited by law.
- * Remove any iron or metal reflective markers placed in the road right of way. They pose a significant risk as the poles can break and cause tire damage.
- * Do not put trash and recycling receptacles in the road, instead place them in your driveway.
- * Homeowners are responsible for clearing the snow around the mailbox. The town is not responsible for damage to a mailbox caused by the weight of ice and snow.
- * If you have snow plow concerns when the office is closed, please contact Town Board Supervisor Wayne Ace at 576-7281.
