

**Chapter 4.10****DRIVEWAYS – CULVERTS**

## Sections:

- 4.10.010 Authority and purpose.
- 4.10.020 Jurisdiction.
- 4.10.030 Definitions.
- 4.10.040 General provisions.
- 4.10.050 Application statement.
- 4.10.060 Specifications.
- 4.10.070 Joint driveways.
- 4.10.080 Existing driveways and field roads.
- 4.10.090 Variances.
- 4.10.100 Expiration of permits.
- 4.10.110 Fees.
- 4.10.120 Violations.
- 4.10.130 Severability.
- 4.10.140 Permits issued under previous ordinance.
- 4.10.150 Driveway dedication.

**4.10.010 Authority and purpose.**

The Town Board of the Town of Oregon has the specific statutory authority, pursuant to Wis. Stat. §§ 86.07(2) and 236.45 (1997-1998) and by its adoption of village powers under Wis. Stat. § 60.22(3) (1997-1998), to provide regulations to promote the health and safety of the community, the transporting of public and emergency services personnel and equipment by regulating the placement, design, modification and maintenance of driveways and field roads accessing public highways in the Town of Oregon. [Ord. 53 § 1, 1999. Prior code § 4.2.1.]

**4.10.020 Jurisdiction.**

This chapter applies to all driveways and field roads installed, altered, changed, replaced or extended after the effective date of the ordinance codified in this chapter. [Ord. 53 § 2, 1999. Prior code § 4.2.2.]

**4.10.030 Definitions.**

“Bump-out” means a section of driveway measuring forty (40) feet in length and twenty four (24) in width, and a sixteen (16) foot height restriction for branches shall be maintained, to allow for the safe passage of motor vehicles.

“Driveway” means a road or other traveled way giving access from a public highway to one (1) or more buildings located, or to be constructed, on adjacent land.

“Field road” means a road or other traveled way giving access from a public highway to farmland, farm accessory buildings, or other adjacent vacant land.

“Variance” means any deviation from the provisions of this chapter. [Ord. 53 § 3, 1999. Prior code § 4.2.3.]

**4.10.40 General provisions.**

a. Permit Required. No person shall construct, relocate or extend a driveway or field road without first obtaining a permit from the Town Board, pursuant to this chapter.

b. Permit Application Procedure.

1. All applications for a permit, authorized by this chapter, shall be in writing on an official form furnished by the Town Clerk. All applications shall be filed with the Town Clerk together with the permit fee. Permit applications shall contain the name, address, and phone number of the applicant, the name of the property owner, a proof of the applicant's ownership or right to possess the subject property, identification of materials proposed to be used, along with a sketch of the subject property and the proposed location of the driveway or field road. The sketch shall be approximately drawn to scale and shall show dimensions and location of any improvements, and/or proposed improvements.

2. The Town Clerk shall forward the completed application to the Town Chairman, or designee. The Chairman or designee shall make arrangements with the applicant to conduct a site visit of the proposed location of the driveway or field road to determine compliance with the provisions of this chapter. Following the site visit, the Town Chairman or designee shall inform the Town Clerk of application compliance, or noncompliance. If application is noncompliant, the Town Clerk, at the request of the applicant, will include consideration of a variance on the agenda of the next regularly scheduled Town Board meeting. Note: No Board approval is necessary, unless the driveway or field road is in need of a variance from the Board.

3. If Town Board consideration is necessary, because a variance is required, the Board shall review the report of the Town Chairman or designee who performed the site visit. The Town Board shall consider any variance and take action to approve or deny the permit. The Town Board may alter the proposed location of the driveway or field road on the applicant's sketch. Any changes to the location or design, or any variance allowed to the specifications of this chapter, must be acknowledged by the applicant by initialing the Board's approved revisions on the sketch and application form.

4. The Town Clerk shall provide a copy of the approved permit and sketch to the applicant and maintain a file of all permits and applications. [Ord. 53 § 4, 1999. Prior code § 4.2.4.]

**4.10.50 Application statement.**

All permit applications shall contain the applicant's statement that:

a. The applicant represents all parties in interest and that such proposed driveway or field road is for the bona fide purpose of securing access to the applicant's property.

b. The Town, notwithstanding the construction of such driveway or field road, reserves the right to make any changes, additions, repairs, or relocations within the dedicated portion of the public right-of-way at any time, including relocation, reconstruction, widening, and maintaining the public right-of-way without compensating the owner of such private driveway or field road for the damage or destruction of such private driveway or field road.

c. The applicant and applicant's heirs, successor, or assigns agree to indemnify and hold harmless the Town, its officials, officers, agents, or employees against any claim or any cause of action for personal injury or property damage sustained because of granting such permit.

d. Utility relocation costs shall be the responsibility of the property owner. [Ord. 53 § 5, 1999. Prior code § 4.2.5.]

**4.10.60 Specifications.**

a. The Portion of the Driveway/Field Road between the Traveled Portion of the Public Highway and the Private Property.

1. Visibility. As a standard, a driveway or field road shall be located as to permit a safe distance from a vehicle, at the driveway or field road, to see an approaching vehicle and to have adequate time to exit or enter the driveway or field road safely. An object measuring three and one-half (3 1/2) feet in height shall be visible from the driveway or field road at the edge of the traveled portion of the highway for a distance identified in the sight/stopping distance criteria table below.

Design Speed MPH	Stopping/Sight Distance in Feet	
	Minimum	Desirable
30	200	200
35	225	250
40	275	325
45	325	400
50	400	475
55	450	550

2. Approach. The driveway or field road approach angle at the edge of the traveled portion of the highway right-of-way must be between seventy (70) and one hundred ten (110) degrees.

3. Storm water Runoff. The driveway or field road shall be constructed to prohibit storm water run-off from flowing or encroaching onto the traveled portion of the public highway. A distance, a minimum of three (3) feet from the edge of pavement, the elevation of the driveway must be lowered a minimum of two (2) inches lower than the elevation of the edge of the pavement.

4. Grade. A driveway or field road surface shall be constructed with a maximum grade of five (5) percent for a distance of thirty (30) feet from the edge of the existing roadway.

5. Width. The width of a driveway or field road surface shall be twenty-four (24) feet wide where it flares out to meet the edge of the pavement.

6. Culvert. A culvert with metal flared end sections shall be installed under each driveway or field road. The culvert shall measure eighteen (18) inches in diameter or equivalent capacity, and twenty-four (24) feet in length. For the purpose of adequate storm water management, the Town Board may, in its discretion, require the dimensions of a culvert to exceed the minimum width or length requirements of this subsection. Unless a variance is granted by the Town Board, in no event shall a culvert measure less than the surface width of the driveway or field road. It will be the applicant/owner’s responsibility to bear the cost and expense of installing the culvert. Installation shall be completed within a reasonable time after the issuance of a permit pursuant to this chapter. Culvert maintenance within Town right of way will be maintained by the Town. Total cost of new replacement of this existing culvert will be at the owner’s expense.

7. Location.

A. A driveway or field road, outside of a Town subdivision, shall be located at least three (300) feet from a paved or traveled portion of an intersecting public highway.

B. The nearest traveled edge of a driveway or field road shall be located a minimum of ten (10) feet from any property line.

8. Accesses.

A. One residential driveway access per lot.

B. The approach apron of a new or replacement of a concrete driveway must have a joint, full thickness of slab, installed four (4) feet from pavement edge for future road improvements. When road improvements occur, the town will replace with blacktop material. Concrete replacement will be at owner’s expense.

b. The Portion of the Driveway beyond the Public Right-of-Way.

1. Surface. A driveway shall have a minimum finished surface at least twelve (12) feet in width. The driveway shall have at least six (6) inches of two (2) inch rock, covered with at least three (3) inches of three-quarter (3/4) inch gravel, or other equivalent weight-bearing surface.

2. Width Clearance. The minimum width clearance along a driveway shall be twenty-four (24) feet.

3. Height Clearance. The minimum height clearance along the entire driveway shall be sixteen (16)

feet.

4. Grades. The maximum allowable average grade of a driveway shall not exceed twelve (12) percent. In no event shall a segment of a driveway exceed fifteen (15) percent.

5. Drainage. Ditches, roadway crowning and culverts which provide adequate drainage shall be required.

6. Curves in Long Driveways. Curves located on driveways measuring fifty (50) feet or more in length have a minimum inside radius of thirty-six (36) feet.

7. Safe Passage. Driveways measuring five hundred (500) feet or more in length shall include a bump-out that is a minimum of twenty four (24) feet in width, and a sixteen (16) foot height restriction for branches shall be maintained, for a distance of forty (40) feet, to allow for safe passage of vehicles. In addition, the following applicable requirements shall be satisfied:

A. A driveway over eight hundred (800) feet with visibility unobstructed by curves, steep topography or vegetation shall require a bump-out every five hundred (500) feet.

B. A driveway over eight hundred (800) feet with visibility obstructed by curves, steep topography, or vegetation, shall require a bump-out every three hundred (300) feet.

8. Cul-de-Sac. At the end of any driveway in excess of five hundred (500) feet in length, a minimum thirty-six (36) foot radius cul-de-sac shall be provided.

9. Erosion Control. Adequate erosion control measures shall be employed during construction of the driveway or field road. All disturbed ground and side banks shall be seeded promptly after construction to control erosion.

10. Engineer's Plan. The Town Board may, in its discretion, require an engineer's plan at the applicant's expense as a condition of approval, based on the intended use and/or characteristics of the site of the proposed driveway or field road. [Ord. 53 § 6, 1999. Prior code § 4.2.6.]

#### **4.10.070 Joint driveways.**

Joint driveways will not be permitted without a joint driveway agreement establishing the proposed joint driveway and manner of its construction, maintenance and use. The joint driveway agreement shall be recorded with the Register of Deeds and a copy provided to the Town Clerk. [Ord. 53§ 7, 1999. Prior code § 4.2.7.]

#### **4.10.080 Existing driveways and field roads.**

When an existing field drive becomes a driveway for a residence, it shall comply with the current ordinance and fees. When washouts, erosion, or other conditions created by existing driveways or field roads become a potential hazard to a public highway, the Town Board shall provide written notice to the property owner of such conditions. If the property owner fails to correct such conditions within thirty (30) days of the date of the written notice by the Town Board, the owner shall be found in violation of this chapter. In addition, the Town Board shall take reasonable steps to eliminate the hazard, and charge the Town's cost to the property owner as a special charge, pursuant to Wis. Stat. § 66.60(16)(a) (1997-1998). [Ord. 53 § 8, 1999. Prior code § 4.2.8.]

#### **4.10.090 Variances.**

Where, in the judgment of the Town Board, it would be inappropriate to apply literally the provisions of this chapter because exceptional or undue hardship would result, the Town Board may waive or modify any requirement to the extent deemed just and proper, as long as such modification does not violate the intent of this chapter as stated under OMC 4.10.010, Authority and purpose. Application for any such variance shall be made in writing to the Town Clerk. [Ord. 53 § 9, 1999. Prior code § 4.2.9.]

#### **4.10.100 Expiration of permits.**

Unless construction of a driveway or field road has not commenced within one (1) year from the date of issuance of the permit, such permit shall lapse. [Ord. 53 § 10, 1999. Prior code § 4.2.10.]

#### **4.10.110 Fees.**

Driveway or field road permit fees must be paid prior to a building permit being issued.

a. **Standard Driveway Fee.** The standard fee for a driveway permit shall be as set by the fee schedule adopted by resolution. This fee shall cover the cost of one (1) on-site inspection by the Town Chairman or designee. A re-inspection fee as set by the fee schedule adopted by resolution shall be charged for each additional driveway inspection.

b. **Standard Field Road Fee.** The standard fee for a field road permit shall be as set by the fee schedule adopted by resolution. This fee shall cover the cost of one (1) on-site inspection by the Town Chairman or designee. [Ord. 53 § 11, 1999. Prior code § 4.2.11.]

#### **4.10.120 Violations.**

a. **Violations in Construction or Modifications.** It shall be unlawful to construct or modify any driveway or field road in violation of this chapter. Any person who fails to comply with the provisions of this chapter shall pay a fine equal to three (3) times the permit fee. The Town Board shall order such person to make the corrections or alterations necessary to comply with this chapter.

b. **Violation Corrections.** If a person fails to make the corrections or alterations as ordered, the Town Board may make the corrections or alterations and charge the Town's cost to the property as a special charge, pursuant to Wis. Stat. § 66.60(16)(a) (1997-1998). [Ord. 53 § 12, 1999. Prior code § 4.2.12.]

#### **4.10.130 Severability.**

Should any section or provision of this chapter be declared invalid, such decisions shall not affect the validity of the remaining portions of this chapter. [Ord. 53 § 13, 1999. Prior code § 4.2.13.]

#### **4.10.140 Permits issued under previous ordinance.**

If a property owner fails to complete construction within one (1) year of issuance of a driveway or field road permit under the previous ordinance, the permit shall lapse and the current property owner of record shall apply for a new permit under this chapter and comply with all requirements contained herein. [Ord. 53 § 14, 1999. Prior code § 4.2.14.]

#### **4.10.150 Driveway dedication.**

Under no condition shall any private driveway dedication occur prior to the private driveway first being upgraded to comply with Town road standards, and Wisconsin State Statutes. All standards related to design, grading, construction and drainage shall meet State Department of Transportation Standard Specifications for Roads and Bridge Construction and its supplements, or the Town's subdivision land division ordinance; the more restrictive provision shall apply. [Ord. 53 § 15, 1999. Prior code § 4.2.15.]
